Executive summary

This deliverable summarizes the SafeCloud website.

1 Introduction

The SafeCloud website is hosted on its own domain, and maintained by UniNE. The address of the website is: www.safecloud-project.eu. It was launched during the first month of the project, and is updated and improved periodically. The website is based exclusively on open source technologies.

2 SafeCloud wiki

As part of the SafeCloud website, we have integrated a private wiki for the use of the consortium. The wiki currently contains meetings minutes, an activity journal, and drafts of tables. It is used jointly with the email lists and the git repository, and might be extended as the project progresses.

3 Content

The SafeCloud website displays a synthetic and easy to grasp summary of the project. Several sections are dedicated to providing more details on specific aspects, including:

- overview of the project concept and objectives;
- Latest news, including publications;
- Project consortium;
- Acknowledgement of the EC funding, with the EU flag, embedded in the home page footer;
- Related projects [planned after submission of the Month 6 deliverables];
- Public project deliverables [planned after submission of the Month 6 deliverables].
